▶ About Aston University

At a time of significant change within the Higher Education sector, with more emphasis being placed on widening participation, graduate employment, the student experience and the impact of research on society, Aston looks forward to the future with confidence.

Aston's vision is to be the UK's leading University for business, enterprise and the professions, where original research has a positive impact on the world around us. Aston's strategy 'Forward to 2020' describes Aston as a top research-led international University renowned for developing future leaders of business and the professions.

We already 'punch above our weight' and have high, yet realistic, aspirations for 2020 that include:

- ▶ Ranked within the top 1% of universities in the world, and consistently in the Top 20 in the UK
- ▶ In the Top 10 for Graduate Employability in the UK and Top 40 worldwide
- ▶ Focussed on the needs of business and the professions, with all Aston undergraduate students taking part in integrated work experience
- ▶ Carrying out world class research that leads to the creation of practical and applicable

solutions for the challenges of the future, and contributes to the development of research leaders and entrepreneurs

- ▶ Providing an inspiring, challenge-based education for students, equipping them to develop into global citizens, with the skills, knowledge and confidence they will need to achieve their goals and reach their full life potential
- ▶ Engaging with our community and city, recruiting students with talent regardless of income and background, and partnering with business, the professions and the public sector
- ▶ Putting sustainability at the centre of all we do, ensuring that Aston is one of the greenest and most sustainable of all UK universities, in the Top 5 of the People and Planet League.

Students are at the heart of everything we do within Aston's small and friendly community – in the way we think and in the way we act. The student experience is distinctive and unique at Aston because it is built and lived by students and staff as equal partners in the relationship. Our students are engaged in all aspects of their academic and social lives at Aston; our staff are genuinely interested in their students, their success and their welfare, and are universally approachable and friendly.

Welcome from Professor Bjorn Birgisson

Dear applicant

I am delighted that you are considering applying for this position at what is a particularly exciting time for Aston University, and in particular for the School of Engineering and Applied Science.

The School's tradition of quality and innovative teaching, and its reputation for cutting edge research that is relevant to industry, business and society, offers our staff and students excellent opportunities to join in the process of discovery and creativity, and prepare for an increasingly diverse and technological world.

Our scientists and engineers work together with a variety of other professionals in their quest to find solutions to complex problems. Our research income has grown dramatically over the past five years with awards growth trebling and now at a level of over £9M / year and still growing. A particularly important development is the establishment of new substantive Research institutes in photonics (Aston Institute for Photonics Technology) and in bioenergy (European Bioenergy Research Institute).

Teaching innovation and quality are a vitally important focus. In the School of Engineering and Applied Science we are inspired by the challenges of providing a vibrant, fulfilling and effective student experience, and this is reflected in our attention to teaching innovation; we are particularly proud of our innovation in introducing "active engineering" across our curriculum. We encourage our students to learn by doing – e.g., in multidisciplinary project groups.

It is a very exciting time to be a part of Aston and I look forward to receiving your application and learning more about how you would contribute the schools continuing success.

Professor Bjorn Birgisson
Executive Dean, School of Engineering and Applied Science

► Job description

An Engineer is required to assist in operating, maintaining, repairing and developing units in the pilot plant in EBRI. The process plant currently consists of a 400 kg/h air blown fluid bed gasifier coupled to a compression ignition engine pilot fuelled with vegetable oil. In addition there is a 100 kg/h pyrolysis unit which can be close coupled to the gasifier. The duties will include planning maintenance and repairs to equipment and instrumentation systems, handling feed and other materials and removing wastes and residues. A particular advantage would be expertise and experience in at least one of the following areas: instrumentation and control; operation of analytical instruments; troubleshooting novel equipment; health and safety; management of heat and power systems; management of contractors for example on welding and pipefitting.

The role holder will report to the Senior Engineer.

Responsibilities

- To undertake maintenance, repair or organisation of repairs to equipment and units in the pilot plant.
- To assist with development, commissioning and installation of process and mechanical equipment that is used in the EBRI pilot plant.
- To assist with troubleshooting and/or identification and localisation of malfunctions of plant items and repair them.
- To assist on the construction, installation and/or repair of process and mechanical equipment.
- To perform manual handling and mechanical handling of equipment and gas, liquid and solids and general tidiness around the plant.
- To observe and implement all Health & Safety rules and regulations in the workplace.
- To assist in conducting risk assessments, to help to develop best working procedures, to implement safe and effective methods to operate plant on a daily basis.
- To work in a team and assist other plant operators, to be an effective team member, to work with the team in an efficient manner.
- To assist with other projects elsewhere in the EBRI laboratories when possible.

- ▶ To assist with ordering and/or disposing of equipment, materials, consumables and spares for efficient operation of the plant under the supervision of EBRI Plant manager or a senior manager.
- ▶ To assist with biomass test campaigns.
- ▶ To develop good relationships with EBRI staff, managers, partners and visitors.
- ▶ To assist with solving issues related to EBRI plant operation.
- ▶ To follow the instructions, advice and guidance as delegated by the EBRI plant manager or senior staff within the reasonable remit of the post holder and as per HSE guidelines.

► Person specification

	Essential	Method of assessment
Education and qualifications	A first degree or equivalent in chemical engineering, mechanical engineering or a relevant subject.	Application form
Experience	<p>Experience of working on pilot or demonstration scale processes, particularly thermal processing of biomass.</p> <p>Knowledge of the day to day operation, maintenance and troubleshooting aspects on small scale process plant.</p> <p>Experience in following safe working procedures and being a member of a team of onsite engineers.</p> <p>Experience in managing relationships with stakeholders such as biomass suppliers, parts manufacturers, academics.</p>	Application form and interview
Aptitude and skills	<p>Excellent communication skills.</p> <p>Excellent organisational and mechanical skills.</p> <p>Highly developed interpersonal skills.</p> <p>Good level of proficiency in using Microsoft packages.</p> <p>Good level of proficiency in working with spreadsheets and databases.</p>	Application form and interview

	Desirable	Method of assessment
Education and qualifications	<p>A good first degree or equivalent in chemical or mechanical or a related discipline.</p> <p>Knowledge and experience of process control.</p>	Application form,
Experience	<p>Experience in process plant construction and/or operation.</p> <p>Knowledge and experience of carrying out mass and energy balances based on chemical engineering principles.</p> <p>Experience in gasification, pyrolysis and combined heat and power systems including analysis techniques.</p> <p>Experience of plant maintenance and repair.</p>	Application form and Interview
Aptitude and skills	<p>Excellent oral communication skills for liaison with external collaborators, research partners, and contractors.</p> <p>Excellent organisational skills with a proven ability to prioritise and meet deadlines within the framework of an agreed programme.</p> <p>Willingness to undergo relevant training both on and offsite.</p>	Application form and interview

► Salary & benefits

This post is offered on a full time, fixed term basis. The appointment is Grade 7 and the salary range for this grade is £24,775 - £29,552 per annum.

Holiday entitlement	30 days per annum, in addition to 13 days public and university holidays.
Pension	Eligible staff are offered a defined benefit pension with the University Superannuation Scheme.
Contribution pay	The University's Performance Development and Reward Scheme provides for salary enhancement for staff who are considered to be performing at an exceptional level on a consistent basis.
Relocation	Aston University aims to recruit the most talented individuals. This policy is intended to support this aim by providing assistance to new employees who have to relocate to take up a position. This policy applies to staff appointed to a position from 1 January 2014 at grade 7 (salary point 25) or above on an open-ended contract or to a fixed term position of two years or more, and who have to relocate their place of residence in order to take up the appointment.

► Outline terms and conditions of the appointment

Qualifications

Successful candidates will be required to produce evidence of their qualifications upon joining the University

Medical clearance

It is a condition of appointment that newly-appointed staff receive medical clearance from the University's Health Centre.

Eligibility to work in the UK

Candidates who are not citizens of the United Kingdom, or of another EEA member country, should ensure that they meet the requirements of one of the 5 tiers of the immigration points based system.

Candidates should check their eligibility to enter or remain in the UK in advance of making any job application using the [points-based calculator](#) on the UK Visas and Immigration website. If you do not meet the minimum points requirement, you will not be able to work in the UK and any application for employment would be unsuccessful.

Document checks

As a result of the implementation of sections 15 to 26 of the Immigration, Asylum and Nationality 2006 Act on 29 February 2008, the University requires all prospective and, in some cases, current employees, to provide documentation to verify their eligibility to work in the UK. Further information about these requirements can be found on the [UK Visas and Immigration website](#).

Equal opportunities

Aston University promotes equality and diversity in all aspects of its work. We aim to ensure, through our admissions policies for students, and our staff recruitment and selection processes, that we encourage applications from all groups represented in the wider community at a local, national and international level.

The University will endeavour not to discriminate unfairly or illegally, directly or indirectly, against students or potential students, staff or potential staff. This commitment applies to all functions of the University and to any stage of an individual's career at Aston.

An Equal Opportunities Monitoring Form is included with the application form.

Data Protection Act 1998

Your application will only be used to inform the selection process, unless you are successful, in which case it will form the basis of your personal record with the University which will be stored in manual and/or electronic files. Information in statistical form on present and former employees is given to appropriate outside bodies.

Data you provide on the Equal Opportunities Monitoring Form will be included in a general database, for statistical monitoring purposes, enabling the University to monitor the effectiveness of its Policy, Code of Practice and Guidelines on Equal Opportunities in Employment. Individuals will not be identified by name.

Disclosure and Barring Service (DBS)

Under the Rehabilitation of Offenders Act 1974, a person with a criminal record is not required to disclose any spent convictions unless the position they are applying for is listed as an exception under the act.

Full details of our terms and conditions of service and associated policies and procedures are available online at www.aston.ac.uk/hr.
