- ▶ About Aston Medical School

Founded in 1895 and a University since 1966, Aston is a long established research-led University known for its world-class teaching quality and strong links to business and the professions. Professor Alec Cameron became Vice Chancellor of the University in 2016, building on a strong legacy left by the Baroness Brown of Cambridge.

Outstanding graduate employability

Aston has been a leading university for graduate employment success for over 25 years. More than 80% of Aston graduates go on to a graduate level job within six months. The majority of Aston students choose to take an integrated placement year or year abroad, making them very attractive to employers. We have strong relationships with national and international graduate employers, as well as smaller and local employers. These relationships are extremely important and make a real contribution to graduate employability.

Career focussed programmes

Aston's close and established links with business, the public sector and the professions ensure that our career focussed degree programmes are inspiring, challenging and constantly updated to equip students with essential work-related skills and experiences.

Excellence in teaching and research

We are committed to high quality teaching and academic excellence, ensuring we provide the highest standard of education to our students. Aston has an excellent reputation for research which shapes and improves lives. We're proud of the quality of our research and the real world applications developed as a result – it makes a substantial and beneficial difference to people, organisations and society.

Aston's four academic Schools offer a range of undergraduate and postgraduate degree programmes, and also work with the public and private sectors to develop tailored Foundation Degree programmes.

International

Aston University is a popular choice for international students. We recognise and welcome the important academic contribution and cultural diversity international students bring to our university environment. Students from over 120 countries study at Aston University each year

Aston University is ranked 29th in the world and 9th in the UK as one of the 'most international universities in the world.' (The Times Higher World University Ranking, 2016-17).

Birmingham – one of Europe's liveliest cities

Birmingham is internationally recognised as a leader in leisure, entertainment, shopping and sport. It is an international centre for business, commerce and industry, housing numerous UK and overseas banks and law firms. Birmingham attracts 25 million visitors each year and contributes billions to the national economy through manufacturing and engineering.

The University campus is located in the city centre making it very accessible to an extensive network of motorways and railways.

A green, sustainable campus

Located in the heart of a vibrant city, our 40 acre campus houses all the University's academic, social and accommodation facilities for our 14,355 students. All staff have the opportunity to contribute to our sustainability agenda and practices.

Welcome from Professor Alec Cameron, Vice Chancellor & Chief Executive

Dear applicant

The HE sector is currently experiencing an unprecedented scale and pace of change, combined with a high degree of ambiguity and uncertainty. Those universities able to adapt swiftly to a changing and increasingly competitive market will thrive. As a mid-sized, focused university Aston has the advantages of agility, innovation and team working that some other institutions do not. Our integrated placement year, our applicable, exploitable research, and our commitment to widening participation all help to make Aston distinct.

The 2014 Research Excellence Framework results recognised the quality and impact of Aston research. This research directly influences medical breakthroughs, advancements in engineering, innovation, policy and practice in government, and the strategies and performance of local and international business. The Times Higher Education REF rankings placed Aston University 35th in the UK and 78% of our submissions were judged to be World Leading or Internationally Excellent.

Teaching quality and the student experience are an important focus at Aston. We are committed to doing all we can to address the needs of students and to assisting them to achieve their career ambitions on graduation.

We very much look forward to receiving your application and learning more about how you would contribute to Aston's continuing success.

A handwritten signature in blue ink that reads "Alec Cameron." The signature is written in a cursive, flowing style.

Professor Alec Cameron
Vice Chancellor & Chief Executive

► University values

All staff are expected to demonstrate / promote the University's values and expectations, which are an integral part of our 2020 strategy and underpin the culture of the University. Our vision is to be the UK's leading University for business and professions, where original research, enterprise and inspiring teaching deliver global impact. More information about the university's values is available at www.aston.ac.uk/staff/working/dare-to-succeed/values/

In addition, our leaders are expected to be accountable, help to execute strategic visions of the University, share and set clear expectations that inspire those around them. Further information on our leadership expectations can be found at: <http://www.aston.ac.uk/EasySiteWeb/GatewayLink.aspx?allId=158042>

► Staff expectations

All staff are expected to;

- Be committed to delivering high performance
- Recognise and praise the high performance of others
- Remain open to new ideas and seek to act quickly for positive change
- Develop themselves, and support the development of others
- Be ambitious, for themselves, their teams and the university
- Engage with others, listen, observe and communicate
- Focus on excellent customer service, finding solutions and saying “yes”
- Make reasoned decisions without fear of blame
- Engender trust through their own actions
- Be fair in all matters

► Aston Medical School

Aston Medical School (AMS) aims to train tomorrow's doctors for a global community to meet the increasing demand in the UK and abroad for highly skilled medical practitioners and clinician scientists. Aston Medical School forms the fifth school of study within Aston University and complements the excellent expertise existing in the other four schools of the university. Aston Medical School is working in close partnership with a number of the regional NHS Hospital Trusts and many of the Primary Care practices to deliver a modern 21st century medical education.

Aston Medical School plans to open its doors to undergraduate medical students in the autumn of 2018, subject to regulatory approval by the General Medical Council. Once open, it will take approximately 100 students per year on a 5-year medical degree. All our graduates, in addition to obtaining an MBChB qualification, will have the opportunity to gain a postgraduate certificate in leadership and management as part of their medical degree, providing them with the business acumen for their future career. Aston Medical School is working in close partnership with Aston Business School, which is one of only three UK business schools to have received the Small Business Charter Gold Award.

Aston Medical School has adopted a funding model that will allow it to provide a medical education to students that may otherwise struggle to access this opportunity and who come from schools with an Index of Deprivation >90%. The low cost to the public purse approach taken by Aston Medical School is backed by Trusts and Clinics throughout the region to encourage social mobility within the West Midlands. A total of 20 medical scholarships will be specifically earmarked for students within Birmingham and the Black Country from 'hard to reach communities'. The remainder will be open to international students, which will in-turn help to fund the scholarship programme. As a new school we are able to fully implement clinically oriented team-based and research-led teaching methods to meet the recommendation of The Shape of Training review and in line with the GMC's promoting Excellence.

All the activities within Aston Medical School affirm the mission of Aston University to be an international centre of excellence in learning & teaching, research and community engagement.

Aston Medical School will start to take postgraduate research students from October 2015. A university-wide Aston Medical Research Institute (AMRI) has been established to create a culture of discovery based exploitable research that transforms lives, and addresses global health challenges. The initial focus is on women's health and vascular complications of diseases such as dementia and diabetes. Aston Medical School is working in close partnership with the School of Life and Health Sciences whose primary focus is in subjects allied to medicine. Aston is ranked 1st in the UK for subjects allied to medicine in the 2014 Sunday Times University Guide.

Aston Medical School is committed to translational research and entrepreneurship ("from bench to bedside to business") with a view to take discoveries from invention through to practical application. At this stage of school's development, research interests are focused on the vascular basis of diseases, particularly in the areas of angiogenesis (how new blood vessels form from pre-existing vessels) and vascular protection. One area in which our academics have established world prominence is in developing new therapies for preeclampsia (StAmP Trial). Our current research projects are focused particularly on preeclampsia, taking a multi-dimensional approach to evaluating potential causes of the disorder and developing new therapies based on scientific discoveries.

Organisation

The School is led by an appointed Executive Dean, Professor Asif Ahmed, Professor of Vascular Biology and Pro-Vice-Chancellor for Health at Aston University.
